

NEW! Innovative X-Diamond™ 18-Gauge A4 sandy nitrile coated glove. Very comfortable, smooth, ultra-thin, and cool-to-the-touch feel for extended wear.

KEY FEATURES

- **Engineered with X-Diamond™ Technology**, featuring a proprietary high-performance fiber that delivers exceptional strength and durability compared with conventional cut-resistant yarns. Unlike traditional cut resistant fibers that rely on glass or steel fibers to enhance cut protection, X-Diamond™ Technology achieves high cut resistance without these reinforcement fibers, resulting in a thinner, lighter, and more flexible glove with lasting comfort.
- **Cool-to-the-touch feel** promotes comfort during extended wear.
- **Sandy nitrile coating** delivers reliable grip and oil resistance.
- **Close-fitting design** provides excellent dexterity, tactile sensitivity, and freedom of movement.
- **Reinforced thumb crotch** enhances durability in a high-wear area, extends glove service life, and provides additional protection.
- **Touchscreen compatible** for convenient operation of touchscreen devices.
